ORGANIC PEARL COUSCOUS

All Natural Toasted Goodness

Named for its unique shape, Pearl Couscous (also known as Israeli Couscous) is shaped and rolled into tiny balls and then toasted. This allows it to absorb liquid without falling apart, and distinguishes it from regular couscous and other pasta. Toasting also lends a distinctive, nutty flavor and satisfying mouth-feel.

This versatile product, made from the highest quality wheat, is well known in the Middle East and for the very first time, is now produced in the USA with NON-GMO wheat.

Product Benefits

Produced in USA

Low in Fat, cholesterol & sodium

Cooks in 10 minutes

Non-GMO verified

Organic & Kosher certified
